

# Carrascal Malbec 2018

BODEGA WEINERT, MENDOZA, ARGENTINA

## HARVEST & VINTAGE NOTES

### WINEMAKING PROCESS:

Grapes are hand picked into 20kg cases, and 100% destemmed. Alcoholic fermentation with no pre-maceration takes place over 7-10 days at 26°-28°C. The fermenting juice is pressed with residual sugar and the fermentation is finished with no skin contact. Malolactic fermentation takes place during the Autumn and Winter. In the Spring, the wines are pre-filtered and go clean into casks where they age for of a minimum of 1.5 years.

### TASTING NOTES

Carrascal Malbec has a perfect combination of the typical Cahor nose of violets, and the fruit expression of Mendoza. It also shows deep floral and inky notes, aromas of dried plums and cherries, in addition to toffee and leathery notes from its aging in wood casks.
