# 2021 CHENIN BLANC

BOT RIVER \* WALKER BAY, SOUTH AFRICA

Made from 100% Beaumont, Bot River fruit, this wine is reminiscent of the 2011 vintage. This vintage produced plenty fruit with good concentration and a very long and slow fermentation. Since the first vintage in 1996, Beaumont has committed to making a style of Chenin that captures the purity of the grape. Previous vintages have been regular 4 star wines in Platter.

## VITICULTURE/VINIFICATION

The 2021 vintage produced another year of great health fruit. Good cold winter with lots of rain followed through to the summer. Cool conditions persisted right through the ripening time, allowing the fruit to develop lots of intensity on the vine.

Early picking to preserve freshness, and balance in the wine. Beaumont's new press produced very clean juice. Long slow fermentation and aged an average of 6 months on gross lees in tank. It is a delicious example of cooler climate Chenin Blanc fermented in concrete and stainless steel tanks.

## TASTING NOTES

Its punchy and full of character. Dry, fresh and delicious!

## TECHNICAL INFORMATION
